

Social Search Posts Analysis

A descriptive review of 77 social media posts collected through SUGAR

Measure	Value	Meaning
Posts	77	77 unique post IDs
Impressions	777,508	Across sampled posts
Total engagement	48,587	Recorded interactions
Weighted rate	6.2%	Engagement / impressions

Executive summary

- The dataset contains 77 posts spanning 2026-08-21 to 2026-09-01.
- en is the most frequently detected language (21 posts).
- Engagement is concentrated: the leading post contributes 23% of recorded engagement.
- The most common inferred location is United States (14 posts).
- Geography remains provisional: median location confidence is 0.42, and 16 posts have confidence of at least 0.80.

Bottom line

This report describes the collected sample, not the full population of online discussion. Retrieval settings and result ordering shape the workbook.

1 Dataset and collection design

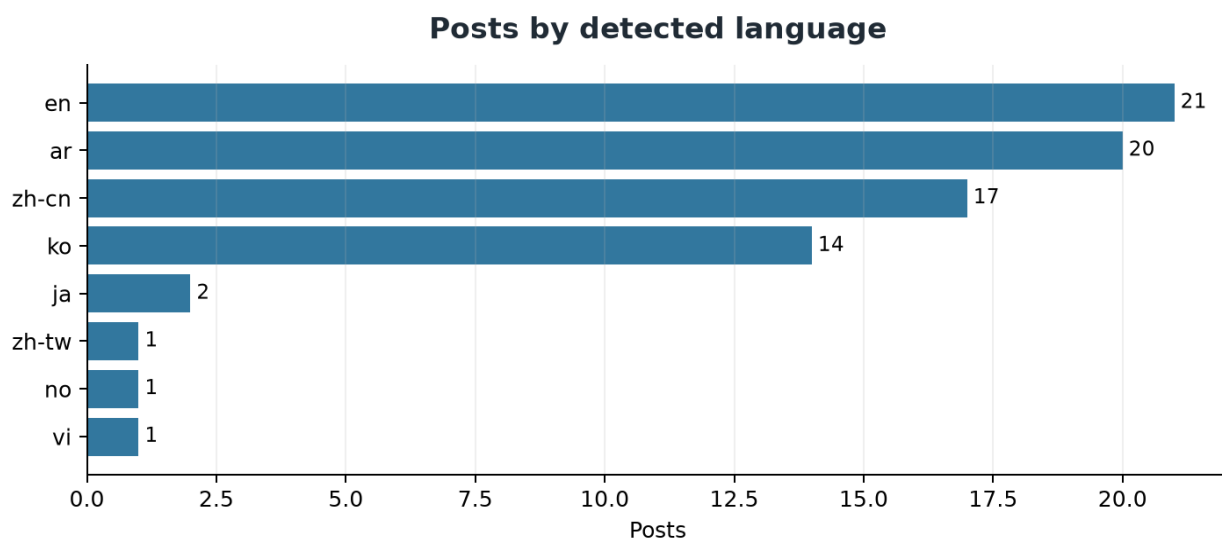

The file contains 77 records observed from 2026-08-21 through 2026-09-01.

Query term	Posts	Observed date range UTC
democracy	10	2026-09-01 to 2026-09-01
communism	10	2026-09-01 to 2026-09-01
民主	10	2026-09-01 to 2026-09-01
الديمقراطية	10	2026-09-01 to 2026-09-01
الشيوعية	10	2026-09-01 to 2026-09-01
民主主義	9	2026-08-31 to 2026-09-01
共产主义	9	2026-09-01 to 2026-09-01
共產主義	9	2026-08-21 to 2026-09-01

Sampling caveat

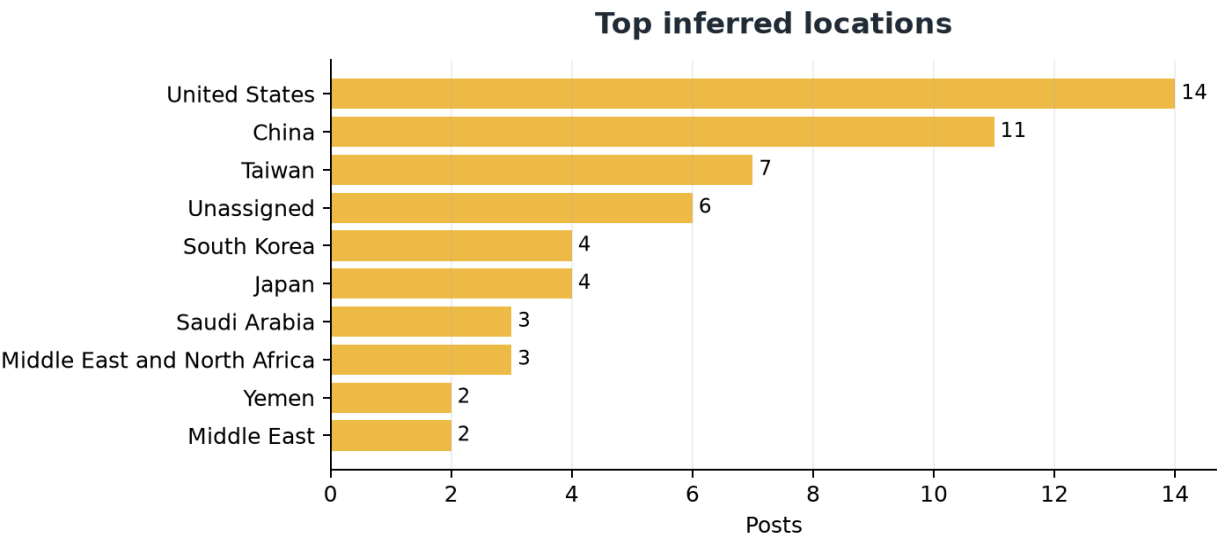

Counts describe retrieved records. They are not estimates of total discussion unless every result page was exhausted.

2 Language and geography

Language	Posts	Impressions	Engagement	Rate
en	21	612,498	46,792	7.6%
ar	20	58,230	646	1.1%
zh-cn	17	71,493	1,063	1.5%
ko	14	34,935	80	0.2%
ja	2	318	5	1.6%
vi	1	11	0	0.0%
no	1	12	0	0.0%
zh-tw	1	11	1	9.1%

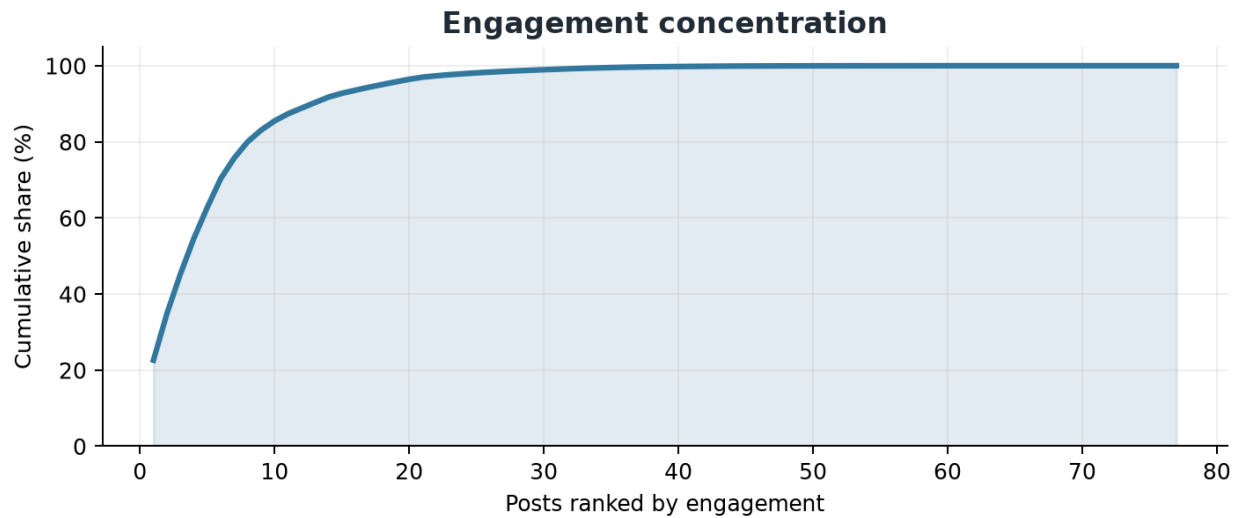

Geographic distribution

Location confidence and meaning

Locations may be inferred from profile information or post content and are not verified geotags. Treat geographic findings as exploratory.

3 Engagement and discourse

Account	Query	Impressions	Engagement	Rate
MAGAVoice	communism	88,776	10,989	12.4%
BolsonaroSP	democracy	41,065	5,942	14.5%
SaraAbrams1990	democracy	100,775	5,054	5.0%
Sassafrass_84	democracy	32,118	4,542	14.1%
waltermasterson	communism	23,284	3,970	17.1%
marceelias	democracy	79,063	3,680	4.7%
RyanAFournier	communism	24,554	2,620	10.7%
texasdemocrats	democracy	16,538	2,079	12.6%
AAGDhillon	democracy	22,475	1,491	6.6%
IbaraEleven	communism	9,579	1,176	12.3%

Recurring vocabulary

communism (27), democracy (26), communist (22), people (20), party (18), socialism (17), democratic (16), china (14), country (10), house (10), capitalism (10), president (9)

These descriptive counts are not validated themes or stance classifications.

4 Recommendations for the next collection

- Increase depth and stratify long date ranges into daily or weekly intervals.
- Preserve query-level counts, pagination status, rate limits, and collection time.
- Store platform and independently detected language separately.
- Separate author location from places discussed.
- Report medians and concentration measures alongside totals.
- Deduplicate near-identical narratives as well as post IDs.

Method notes

Engagement is likes, replies, reposts or retweets, quotes, and bookmarks. Weighted rate is total engagement divided by impressions. The analysis does not independently verify content, identity, translation, or location.
